

PRESS RELEASE

Corbec Corporation, double winner at the American Galvanizers Association's Excellence in Hot-Dip Galvanizing Awards

Nassau, April 6th 2011-It was amongst hundreds of people gathered at the Atlantis Resort in the Bahamas, that the finalists of the American Galvanizers Association's Excellence in Hot-Dip Galvanizing Awards were announced. An awaited annual conference attended by all North American galvanizers, in which Corbec Corporation's candidacy was noticed in 2 categories.

Presented annually, the award program recognizes projects that utilize after-fabrication hot-dip galvanized steel in an ideal, creative, monumental, or otherwise impressive fashion. Whether an artful sculpture glinting under the sun or a sturdy bridge arcing over the waves of a rushing river, galvanized structures can be seen standing strong and corrosion-free across the continent. Winning projects represent the finest achievement in the use of hot-dip galvanizing in a project design and concept.

A Sizable Candidate

Corbec Corporation earned its place by collecting 2 Excellence Awards for the: Hambromodular parking system in the «Most distinguished» category and Oeuvre Coburn in the «Civic Contribution» category. They will have the honour of adding these two awards to six other awards won over the past few years: Churchill River Bridge (2007), Expocité (2008), Kuujjuaq Airport (2008), Canaport (2009), Calypso Water Park (2010), Women of the Future (2010).

For the President of Corbec Corporation, M. John Hall, it's very flattering: « We are grateful to our clients whose projects provide us with the opportunity to compete for these awards» The Corbec team is honoured to stand with its clients amongst the best galvanizers in North America.

Corbec Corporation

Corbec Corporation is the leading hot-dip galvanizer in Central and Eastern Canada. In addition to its ongoing commitment to excellence in galvanized steel products, the company founded in 1965, remains at the forefront of the industry through constant investment in research and development. A committed corporate citizen, Corbec values and supports numerous initiatives that have positive impacts in the community.
